

ANSH PATEL

Web Developer

anantansh1503@gmail.com | 9648014746 | github.com/AnshPatel1503 | LinkedIn Profile

SUMMARY

Full Stack Developer specializing in Laravel, CodeIgniter, React, and Next.js, with hands-on experience building scalable web applications, RESTful APIs, admin dashboards, and database-driven platforms. Skilled in payment gateway integrations (Razorpay, Stripe, PayPal), role-based access control, and third-party API development. Experienced in delivering client projects across e-commerce, SaaS CRM, healthcare, and media domains, with a strong focus on clean, maintainable code and performance optimization.

EXPERIENCE

Freelance Full Stack Developer, YMCODERS Technologies Pvt. Ltd.

Mar 2026 – Present

- Built and maintained modern web applications using Laravel, React, Next.js, PHP, and MySQL, delivering scalable frontend interfaces, backend APIs, and third-party integrations.
- Developed responsive, reusable UI components using React and Next.js, and built scalable RESTful APIs and authentication systems using Laravel and PHP.
- Designed and optimized MySQL databases, queries, and data-driven workflows; integrated third-party APIs, payment gateways, and webhooks into Laravel and React-based applications.

Laravel Developer, Swa Softech Pvt. Ltd.

Aug 2025 – Feb 2026

- Focused on backend performance tuning, secure database design, and modular MVC application structure.
- Developed granular role-based access control (RBAC) modules for multi-tenant admin dashboards using Laravel Eloquent ORM.
- Integrated PayPal SDK and Razorpay Payment Gateway API for secure international and domestic (UPI/net banking) transactions.
- Implemented system-wide automated data sanitization and strict input verification middleware.

PHP Developer, WebVire Software Solutions

Aug 2023 – Aug 2025

- Maintained, debugged, and optimized legacy PHP systems while assisting in early-stage CodeIgniter development.
- Translated manual workflows into automated dashboard analytics using jQuery UI engines, and integrated Stripe Payment Gateway with webhooks for recurring billing.
- Debugged persistent database deadlocks, resolved security vulnerabilities, and authored technical documentation for architecture and schemas.

EDUCATION

Diploma Internship, Softpro India Computer Technologies (P) Ltd.

Jul 2022 – Oct 2022

Diploma, Computer Science & Engineering, Jawaharlal Nehru Polytechnic

2020 – 2023

Intermediate (12th Grade) — 80.8%, Sita Inter College, UP Board

2018 – 2020

High School (10th Grade) — 81.3%, Ram Sagar Verma Public School, UP Board

2016 – 2018

SKILLS

Backend: PHP, Laravel, CodeIgniter, REST API Development

Frontend: React, Next.js, JavaScript, jQuery, HTML/CSS

Database: MySQL, Eloquent ORM

Integrations: Razorpay, Stripe, PayPal, Google Maps API, OTP Authentication

Tools: Git, GitHub, Postman

PROJECTS

MPPL — Ayurvedic Wellness & MLM Platform

- Developed an end-to-end Multi-Level Marketing application with distributor registration, nested network tree structures, real-time commission tracking, and wallet systems. (Laravel, MySQL, Bootstrap)

Aurra Health Kart — E-Commerce Platform

- Built a wellness e-commerce ecosystem with hybrid dual-payment routing, integrating Razorpay for domestic UPI/net-banking and Stripe SDK for international transactions. (Laravel, Razorpay & Stripe, MySQL)

Combiz Solutions — Enterprise SaaS CRM

- Architected a high-concurrency SaaS CRM for international B2B commerce with multi-tenant vendor panels, localized checkout, and automated PDF invoicing. (CodeIgniter, MySQL)

Perfex CRM — Custom Module Development

- Customized and deployed 3 core modules within the CodeIgniter-based Perfex CRM, refactoring backend workflows and automating invoice generation and RBAC tasks. (CodeIgniter, PHP, MySQL)

StreetBuzz — Regional News & Media Portal

- Customized and scaled a real-time regional news aggregator with dynamic content sorting and trending hashtag tracking filters. (Core PHP, JavaScript)

Other Projects

- Contributed to Samrit Food Creation, Restro Genius, Triggare, and IMMIMATE AI — spanning food-tech, SaaS restaurant management, flight booking, and enterprise CRM platforms.
